MEMORANDUM FOR: Acting Deputy Director for Intelligence

SUBJECT: Intelligence Reports

1. You will recall that some time back Legislative Counsel raised a question as to caveats on the use of unclassified intelligence reports made available to selected universities and individual scholars. Attached is a suggested new caveat and a draft memorandum to the Director on this subject; they were prepared by the Office of Legislative Counsel.

2. It seems to me that the Director's instructions this morning on unclassified reports reraise the whole problem in a somewhat different framework and that it would be necessary to obtain new policy guidance in this whole area. Literally interpreted, it would mean we could make no distribution except to cleared people on a classified basis, because I do not see how we could resist congressional requests if we continue to disseminate on an unclassified basis to universities and scholars. The question of caveat seems to be only a minor part of this, but if I could be of any assistance I would be glad to meet with you at your convenience.
